

ORDER

It has been observed that the number of cases are being put up for updation of status with regard to restoration of resumed/cancelled sites. In a number of cases the office has dealt with transfer of ownership matters in these cases in the intervening period but now such cases have been put up for seeking orders of updation of record. There have also been cases where the Peshi Branch have proper entries of resumption/cancellation but the concerned branch reports of non-availability of relevant record. The office in such cases does not explain the delay in not putting up the file for so many years and does not give any explanations for non-availability of record. Sudden surge in cases of updation need to be scrutinized in detail and in depth.

The cases are being put up with incomplete record without justification of delay and non-availability of record. Therefore, to take a decision based on record and facts, a committee is hereby constituted consisting following members:-

1. Sub Divisional Officer (Building).
2. Superintendent (Misuse).
3. Branch Incharge (concerned allotment Branch)

They shall examine these cases and put up with recommendation justifying the recommendations of the committee.
